To my Akal Purakh Uheguru
To my mother Ravinder Kaur Singh
To my father Sujan Singh
For enriching me each and every moment
Their bounteous love is essence of my life

Acknowledgement

*To the Holy Spirit who has cherished me
To the Greatest teacher of creation
To the Light of God*

In the ecstasy of delight, I pay my abysmal obeisance to You, whose mercy and blessings, this piece of work is the result.

My venerable Major Advisor, Dr.(Mrs.) Praveen Kaur, Professor, Department of Human Development and Family Studies (formerly known as Child Development), was a God's gift to me. I am in all accolade for her adroit and dexterous guidance, sustained encouragement, constructive criticism, intellectual stimulation, consistent help and inspiring supervision. I express my deep gratitude, pleasure, pride and indebtedness to her for her scholarly painstaking and incessant efforts, during the course of this investigation and who inspite of her multifarious responsibilities helped me even during odd hours to accomplish this research successfully.

Words are not enough to thank the untiring and everwilling help, keenness, inspiring guidance, generous attitude, painstaking assistance and critical amendments made by Dr.(Mrs.) Sudha Chhikara, Professor, Department of Human Development and Family Studies. I am extremely thankful to other elite members of my advisory committee, Dr. (Miss) Salilesh Darshan, Scientist, Department of Sociology; Dr. (Mrs.) Asha Batra, Professor, Department of Home Science Extension Education and Dr. (Mrs.) Darshan Punia, Scientist, Department of Foods and Nutrition for their valuable suggestions and timely encouragement, necessary prerequisites needed for the present study.

I am thankful to my Head of the Department and other faculty members, especially Dr. (Mrs.) S. Balda for their commendable suggestions and timely help throughout the period of study. I also acknowledge the non-teaching staff for being kind and cooperative during the entire course of investigation.

I express my sincere thanks to Dr. R.P. Singh for timely help and suggestions rendered in statistical analysis of the study. I take this opportunity to express my heartfelt thanks to all the distinguished experts who acted as judges for evaluating the tools of the study and contributed their expertise.

I sincerely acknowledge the respondents of the present investigation without whose patience, cooperation and keen interest this work would not have been possible.

Adulation of my family has helped me to reach unforeseen heights. I am in paucity of words to thank my Mom and Dad, whose magnanimous self sacrifice enabled me to have what they did not. I can never thank them enough for helping me to achieve and shape me into what I am today. I fumble for words to express my appreciation of

unaccountable help, encouragement, infinite good wishes and affection received from Harpinder & Jasveen and Tejinder & Harnam. No appropriate words could be traced in the present lexicon to convey my thanks for the angelic presence and sweet smiles of Mansimar and Harnoor in my life.

I exhibit my ingenuous regards and high appreciation for Mrs. and Mr. Ohlan for their invaluable generous help and encouragement at various stages of investigation. My affectionate gratitude and sincere thanks are due to Gaba's family, Kohli's family, Mr. B.S. Chhikara, Mr. Pramod Sharma, Mr. Jaiswal, Mr. J.S. Kohli, Ms. Hemlata, Mrs. Mathur, Mrs. Rashmi Gaud, Mrs. Chand Chawla, Mrs. Ranjeet Sharma, Mrs. Kamal Arora, Mrs. and Mr. Khemani, Mr. Bharat for their untold blessings, and much needed moral support during the course of investigation.

In a state of euphoria, I recall the laudable presence of Shivani Di as my elderly sister, inviolable interlude filled with affection and caring by Anju di, admirable love and affection of Sabina, Vandana and Kiran, unaccountable fathomless love of Anu, luminous radiant love of Taruna, notable belief in my abilities, love and care of Nupur and Neeti. I am overwhelmed by love of Manisha, Ambika, Anshu, Meenakshi, Ekta and Pinky.

At times when I was bereft of hope, beatific expression by Nirmala di, Valerie, Nidhi, Indika, Geeta, Vinita and Sheilly, and timely help rendered by Madhu, Rajni, Poonam T., Poonam Y., and Swati were a great source of inspiration during the course of study. All of them and especially Abhas, Raj di, Helen, Kavita, Anju N., Esther, Sunita, Shital, Khyati, Dimple, Darshana, Chanderkala di and Preeti joyous company has helped to make my stay in Hisar pleasurable and memorable.

Financial help in the form of Senior Research Fellowship from ICAR, New Delhi and the facilities provided by CCS Haryana Agricultural University are also fully acknowledged.

I deeply acknowledge the help received from Sh. Ishwar Singh in the related work. Sincere thanks are extended to the computer typist, Mr. Sanjeev Kashyap and Mr. Rajesh Kashyap (R.K. Computers) for their neat, efficient and meticulous typing.

Deep in my heart, I appreciate the help received from those whose names I might have missed.
