

**SENSITIVITY OF SUBSOIL WATER TABLE TO RAINFALL
AND IRRIGATION WITH SPECIAL REFERENCE TO
CANAL IRRIGATED TRACTS OF PUNJAB (I).**

THESIS

**SUBMITTED TO THE PUNJAB UNIVERSITY FOR
THE AWARD OF DEGREE OF DOCTOR OF PHILO-
SOPHY IN THE FACULTY OF SCIENCE**

BY

**S.R. Sehgal, M.A., C.St., P.R.S. (I)
Mathematical Officer**

**LAND RECLAMATION,
IRRIGATION AND POWER RESEARCH INSTITUTE,
PUNJAB**

**SENSITIVITY OF SUBSOIL WATER TABLE TO RAINFALL
AND IRRIGATION WITH SPECIAL REFERENCE TO
CANAL IRRIGATED TRACTS OF PUNJAB (I).**

TABLE OF CONTENTS

Ch.	Legend	Page.
Chapter I	Introduction.	1-5
Chapter II	Theory of Subsoil Flow	6-15
Chapter III	Physical Features and Drainage System of Punjab (I).	16-20
Chapter IV	Resume of Subsoil Water depth Studies taken up in Punjab,	21-30
Chapter V	Subsoil Waterdepth Data and Analysis.	31-35
Chapter VI	Rainfall, Run-off, Infiltration, Evaporation and Transpiration.	36-57
Chapter VII	Sensitivity of Subsoil Water Table to Rainfall and Irrigation.	58-82
Chapter VIII	Theory and Physics of Seepage Losses from Unlined Channels.	83-92
Chapter IX	Analytical Approach Towards Devising Anti-Waterlogging Measures.	93-117
Chapter X	Problems and Their Investigation.	118-120
Chapter XI	Bibliography.	121-125

...

LIST OF PICTURES

<u>Fig. No.</u>	<u>Description.</u>
1.1	Map of Punjab Showing Water table contours, October, 1955.
2.1	Index Plan of Punjab Showing Various Canal Systems.
3.1	Map of Punjab showing Subsoil Water Depths, October, 1961.
3.2	Map of Bist Doab Tract showing difference in Watertable, June 1953-54.
3.3	Index Plan of Punjab Showing different canal Irrigated Tracts and Zones.
6.1	Map showing 4 Days' total Rainfall from 24.9.47 to 27.9.47.
6.2	Map Showing 3 Days' total Rainfall from 4.10.55 to 6.10.55.
6.3	Map Showing 3 Days' Total Rainfall from 20.8.60 to 22.9.60
8.1	Graph showing values of 'K' against various values of B/A for different side slopes.
9.1	Map Showing the Alignment of Sub-Alluvial Ridge in Punjab.
