"The Study of Socialization of Child in Muslim
Community with reference to Gulbarga Ward No. 11 B.

By

Shanaz Sultana, M.A.,
Mysore University, 1964.

Administration of Interview Schedule.

The study is concerned about the process of
socialization of Muslim child in Urban setting with special
reference to Gulbarga.

As you are familiar with me since a long time, residing
here, I am sure I will be able to elicit your opinion regarding
socialization of your dear children. Your frank and honest,
answers will help me in knowing various aspects of the problem
to be studied. I ventured to have a real picture of children
since I too am a mother of as you know three children whom you
have seen and met often.

From the opinion given by you, it will be immensely
possible for me to gather information, study and analyse the issue
thus paving a way for other researchers, as you all know, this
area deserves to be studied.

All you have to do is to say yes or no and give reasons
for some questions require a little more information. I will be

meeting you during leisure time and will not disturb you in peak and busy hours of home schedule. I know inspite of your busy household works which keep you always busy, you will surely spare me some time and opportunity. I will promise to keep your identity and answers confidential, and will not fail to reproduce your apt and timely remarks in original.

I am sure your answers will make my study most fruitful and succesful.

With your permission, I would like to question your children whenever it is essential please do not hesitate to ask me any questions if you want to know about me.

I am going to visit the community school for knowing and meeting your children there also.

Thank you
