

A STUDY OF FERTILISER UTILIZATION BEHAVIOUR OF FARMERS
AND COMMUNICATION PATTERNS UNDER CONSTRAINTS

By

M.G. BHILEGAONKAR

A thesis submitted to the Faculty of the Post-Graduate School,
Indian Agricultural Research Institute, New Delhi,
in partial fulfilment of the requirements for
the degree of

DOCTOR OF PHILOSOPHY

IN

AGRICULTURAL EXTENSION

New Delhi

1976

Approved by :

Chairman : *K. N. Singh*
..... (Dr. K.N. Singh)

Members : 1. *S. N. Singh*
..... (Dr. S.N. Singh)

2. *K. N. Singh*
..... (Dr. K.N. Singh)

3. *K. V. Sathu*

CERTIFICATE

I hereby certify that this thesis entitled "A Study of Fertiliser Utilisation Behaviour of Farmers and Communication Patterns Under Constraints", submitted in partial fulfilment of the requirements for the award of the degree of Doctor of Philosophy to the Post-graduate School, Indian Agricultural Research Institute, New Delhi, is a record of bona fide research work carried out by Shri M.G. Bhilegaonkar under my guidance and supervision. No part of the thesis has been submitted for any other degree or diploma. Such help or source of information, as has been availed of during the course of investigation, has been duly acknowledged by him.

Dated the 11th October, 1976

Janet
(K.N. Singh)
Chairman
Advisory Committee
and
Head of the Division of
Agricultural Extension,
I.A.R.I., New Delhi-110 012

ACKNOWLEDGEMENTS

I express my sincere and deep felt sense of gratitude to Dr. K.N. Singh, M.S., Ph.D. (Wisc.), U.S.A., Chairman Advisory Committee and Head of the Division of Agricultural Extension, Indian Agricultural Research Institute, New Delhi, for his learned counsel, untiring attention, valuable guidance and healthy suggestions all along during the investigation and organization of this thesis.

My sincere thanks are due to Dr. S.N. Singh, Senior Agricultural Communication Specialist, Dr. K.N. Singh, Agronomist (Barley), Indian Agricultural Research Institute, New Delhi and Shri K.V. Satho, Scientist (programming), Institute of Agricultural Research Statistics, members of my Advisory Committee for their valuable suggestions, able and unhesitant guidance.

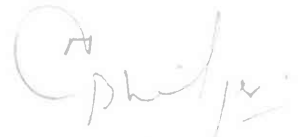

I am also grateful to Dr. P.N. Mathur, Audio visual Aids specialist and Dr. B.P. Sinha extension specialist (TV), Division of Agricultural Extension for their timely advice and suggestions in preparation of this dissertation.

My colleagues who most generously have read, commented on and otherwise helped in the preparation of this report are Shri V.R. Kubde and Shri D.S. Mahajan and many others. To all of them I owe my gratitude.

I am grateful to respondent farmers and extension personnel who have supported for the research base.

I am deeply indebted to Marathwada Agricultural University, Parbhani for sponsoring me at Indian Agricultural Research Institute, New Delhi for Doctoral programme.

Finally, I am highly appreciative of the personal sacrifices of my children Deepak, Santosh and Prasad. To my wife Sov. Rajani Ehilgaonkar, I owe much for the encouragement given and for shouldering the family responsibilities.

(M.G. Ehilgaonkar)

LIST OF TABLES

<u>Table No.</u>	<u>Title</u>	<u>Page</u>
1.	Increase in prices of fertiliser nutrients.	4
2.	Characteristics of the respondents.	93
3.	Extent of change in use of fertiliser and categories of farmers (in respect of total nutrients).	96
4.	Extent of change in use of fertilisers and categories of farmers (in respect of nitrogen only).	98
5.	Extent of change in use of fertilisers and categories of farmers (in respect of phosphate only).	100
6.	Extent of change in use of fertilisers and categories of farmers (in respect of potash only).	101
7.	Extent of change in cropping pattern in two situations.	103
8.	Extent of change in cropping intensity.	104
9.	Shifts in the use of fertilisers under the present situation.	110
10.	Constraints in the use of fertilisers.	112
11.	Correlations between characteristics of the farmers and shifts in use of fertilisers for different categories of farmers.	117
12.	Constraints in relation to shifts in the use of fertilisers (detailed information).	127
13.	Constraints in relation to shifts in use of fertilisers.	130
14.	Constraints in relation to shifts in use of fertilisers and categories of farmers.	131

LIST OF TABLES CONTD.

<u>Table No.</u>	<u>Title</u>	<u>Page</u>
15.	Constraints in relation to shifts in use of fertilisers (Big farmers only N = 76).	133
16.	Constraints in relation to shifts in use of fertilisers (Medium farmers, N = 36).	134
17.	Constraints in relation to shifts in use of fertilisers (Small farmers, N = 38).	135
18.	Awareness knowledge of farmers about fertiliser use technology.	139
19.	Correlations between characteristics of farmers and knowledge about fertiliser use.	142
20.	Sources of information in use of fertilisers and categories of farmers.	147
21.	Relative credibility of sources of information used and categories of farmers.	150
22.	Problems of farmers in use of fertilisers as expressed by different categories of farmers.	156
23.	Suggestions of farmers to ease the present situation of fertiliser use.	159
24.	Knowledge of extension personnel about the fertiliser use technology.	163
25.	Changes in extension approach to suit the present situation.	165
26.	Communication media used in communicating the message about efficient use of fertilisers.	167

LIST OF FIGURES

<u>Figure No.</u>	<u>Title</u>	<u>Between pages</u>
1.	Conceptual model.	54 - 55
2.	Map of Parbhani district showing the blocks and villages included in the study.	60 - 61
3.	Bar diagram showing constraints in relation to shifts in use of fertilisers.	125 - 126
4.	Bar diagram showing constraints in relation to shifts in use of fertilisers and categories of farmers.	128 - 129
