

**RESOURCE USE EFFICIENCY AND
THE SIZE OF FARMS
A CASE STUDY OF RANCHI DISTRICT**

Thesis

Submitted for the Degree of
Doctor of Philosophy
In Economics in the Faculty of Arts,
RANCHI UNIVERSITY

Supervisor

DR. R. N. TRIPATHY

Professor and Head

Department of Economics

RANCHI UNIVERSITY

APRIL 1980

By

L. N. DUTTA

Lecturer, Department of Economics

RANCHI COLLEGE, RANCHI

This is to certify that the present research work by
Shri L. N. Dutta , Lecturer in Economics, Ranchi College,
Ranchi , was prepared under my supervision and guidance
and it is entirely the product of independent effort made
by him . By temperament and character, Shri Dutta is a
fit person to have undertaken a research work of this
nature .

Ranchi University,
Dated :
February 29, 1990.

R. H. Tripathy
(Dr. R. H. Tripathy)
Professor and Head of the
Department of Economics,
Ranchi University, Ranchi.

CONTENTS

		<u>Page No.</u>
	PREFACE	... 1
CHAPTER - I -	INTRODUCTION	... 1 - 7
CHAPTER - II -	CONCEPT AND MEASUREMENT OF EFFICIENCY IN ECONOMICS	... 8 - 33
	1) Concept of Efficiency in Production Economics	
	ii) Measurement and Test of Efficiency in Production	
	iii) Productivity Approach to Measuring Farm Efficiency in Indian Agriculture .	
CHAPTER - III -	A REVIEW OF THE RELATED STUDIES ON THE SUBJECT	... 34 - 55
CHAPTER - IV -	THE PROBLEM, HYPOTHESIS AND METHODOLOGY OF THE PRESENT STUDY	... 56 - 69
	i) The Problem and the Hypothesis	
	ii) The Methodology	
CHAPTER - V -	AGRO-ECONOMIC AND SOCIAL CHARACTERISTICS OF THE SELECTED DISTRICT	... 70 - 90
CHAPTER - VI -	RESOURCES USE PATTERN AND THE SIZE OF FARMS	... 95 - 140
	i) Land Use Pattern, Land Productivity and the Size of Farms	
	ii) Labour Use Pattern and the Size of Farms	
	iii) Capital Use Pattern and the Size of Farms

CHAPTER - VII -	RESOURCE PRODUCTIVITY, RELATIVE EFFICIENCY AND THE SIZE OF FARMS	... 141 - 160
	1) Resource Productivities in agriculture ii) Relative Efficiency and the Size of Farms .	
CHAPTER - VIII-	CONCLUSIONS AND POLICY IMPLICATIONS	... 161 - 168
APPENDIX - A -	PRINCIPLES AND METHODS OF EVALUATION OF FARM COSTS	... 169 - 175
APPENDIX - B -	DERIVATION OF PROFIT FUNCTION	... 176 - 192
APPENDIX - C -	STATISTICAL TABLES	... 193 - 208
APPENDIX - D -	FORM OF QUESTIONNAIRE SCHEDULE	... 208 - 287
	BIBLIOGRAPHY AND REFERENCES	... 208 - 215

P R E F A C E

Economic efficiency is a central theme in agricultural development. Of particular importance are the issues : whether small farms are economically more efficient than the large farms ; and, whether peasant farms are more efficient than the capitalist farms . These vital issues deserve careful examination in the changing structure of agriculture in our country .

In the present research work, we have taken up the above issues for detailed analysis in the context of ^arelatively backward region of our country .

At the outset, I would like to express my deep sense of gratitude to my supervisor, Dr. K. N. Tripathy , who has not only inspired me to take up the rather difficult project like this, but also helped in all possible manner to tide over the various problems and difficulties that have been encountered in the completion of the project . The frequent discussions with him at various stages of the research work have clarified many of the conceptual ideas and helped solve various methodological problems.

I am indebted to the Indian Council of Social Science Research, New Delhi, which awarded me a full time research fellowship for the period of two years (December, 1976 to December, 1978), during which time I had been able to complete major portion of my work . I am thankful also to the Sardar Patel Institute of Economic and Social Research, Bhubaneswar, for kindly inviting me to participate in the six week training course in " Research Methodology and approaches to Economic Analysis " during

May - June, 1977 . My thanks are due to the librarians , Asian Tata Library, Delhi School of Economics, Institute of Economic Growth, New Delhi , National Library, Calcutta , Calcutta University Library and Indian Statistical Institute Library, Calcutta for kindly allowing me easy access to my research materials .

Professors B. Ekka and B. Mahto of Gusia College deserve special thanks for extending their kind co-operation in collecting primary data through village survey . I must also express my thanks to the Development Officers, Agricultural Officers, Village Level workers and Revenue Collectors of Gusia and zero , who have helped me a good deal in the course of collecting the data . My debts are also due to the Rajendra Agricultural University, Ranchi, which has provided me with ample useful informations in connection with the present research . I am also thankful to Shri L. Diwan, who has painstakingly prepared the ty-script of the thesis .

Ranchi:

(L. N. Mitta)
