CERTIFICATE

Certified that Mrs. Veena Dani of Department of Psychology, Government Navin Girls College, Bilaspur has been working for her Ph.D. degree in Psychology under my supervision and guidance. She has now successfully completed her doctoral research work. In my opinion her work is complete in all respects and the thesis entitled "**A study of impression management by employed women**" is ready for submission to the Guru Ghasidas University, Bilaspur for the Ph.D. degree in accordance with ordinance No. 45 under the faculty of Social Sciences.

The work done by Mrs. Veena Dani is original and the same has not been submitted to any other University, for the degree of Doctor of Philosophy.

Raipur

Dated :

(R. D. Helode)

DECLARATION

I hereby declare that the research work entitled "**A study of impression management by employed women**", which is being submitted to Guru Ghasidas University, Bilaspur (M. P.) for the award of Ph.D. degree in Psychology, under the faculty of Social Sciences, is my own and the same has not been submitted to any other university.

Bilaspur.

Dated : 20.4.94.

(Mrs. Veena Dani)

A C K N O W L E D G E M E N T S

The present work is the embodiment of an old dream, which would have remained a dream but for the invaluable help, support and encouragement from so many well wishers. I must place on record my deepest sense of gratitude for Dr. R.D. Helode, who inspite of many pressing commitments, agreed to supervise this research. His competent and skillful guidance ensured a smooth and speedy progression of this research at every stage.

I am grateful to the Higher Education Department of the M.P. Government for sanctioning study leave to me so that I could pursue this work on a whole-time basis. I must also acknowledge gratitude to Madhya Pradesh Council of Science & Technology, Bhopal for selecting my research proposal under their F T I Y S scheme.

I am fortunate to get the opportunity to scan and consult a very wide range of literature on the topics related to my study and I am thankful to the authorities of Wayne State University, Detroit, U.S.A.; Indian Institute of Forest Management, Bhopal; Regional College of Education, Bhopal and Pt. Ravishankar Shukla University, Raipur for making available to me the library facilities. I am indebted to Dr. G.P. Thakur, Prof. of Psychology, Kashi Vidyapith, Varanasi who promptly supplied to me the Social Intelligence Test designed by Dr. S. P. Shahi under his guidance, which has been used in the current work.

My sincere thanks to the principals of various colleges and schools who extended fullest cooperation to me to carry out my field work. How can I ever forget the teachers in these institutions who volunteered to become subjects and took the tests willingly and cheerfully?

Mrs. Anusua Dube, the then principal and my colleagues at Government Navin Girls College, Bilaspur have been a constant source of encouragement and assistance to me. Ku. Sangeeta Saxena, my colleague and a dear friend deserves a special mention for her selfless assistance during my field work.

The credit for the typography and aesthetic appeal of this thesis goes to Sanjay and Madhura Bhagwat of AB's Laserport Computers, Raipur. Mr. K.V. Rao handled the secretarial work with great ability and industry.

Lastly, I must acknowledge the immense encouragement and cooperation of my parents and in-laws. Despite his busy schedule Indraneel, my husband, evinced keen interest in the progress of this work and offered many useful suggestions.

Bilaspur

(Mrs. Veena Dani)

CONTENTS

I INTRODUCTION

1.1	Impression management : Its concept.	1
1.2	A theoretical and historical perspective.	3
1.3	Impression management strategies.	8
1.4	Impression management in Indian society.	13
1.5	Impression motivation.	14
1.6	Empirical studies.	16
1.7	Organizational scene.	21
1.8	Present study : Its rationale	26

II PROBLEMS AND HYPOTHESES

2.1	Problems	31
2.2	The variables	32
2.3	The hypotheses	47

III METHODOLOGY

3.1	Research design	51
3.2	Sample	55
3.3	Tools used	57

3.4	Procedure and scoring	59
 IV ANALYSIS AND INTERPRETATION		
4.1	Variables and their statistical properties	62
4.2	The correlational hypotheses and their statistical verification	67
4.3	The differential hypotheses and their statistical verification	69
4.4	The interactional hypotheses and their statistical verification	89
4.5	Discussion	119
 V SUMMARY AND CONCLUSION		
5.1	Resume	130
5.2	Conclusion	132
5.3	Delimitations and limitations.	137
5.4	Suggestions for future studies.	138

LIST OF TABLES AND FIGURES

S. No.	Title	Page No.
3.1	Particulars of the sample	55
4.1	Test of normality of distributions of sample	63
4.2	Test of normality of distributions conducted after excluding high-lie cases from the sample.	66
4.3	Pearson's product-moment correlation (r) between extraversion and impression management and its seven tactics.	67
4.4	Pearson's product-moment correlation (r) between neuroticism and impression management and its seven tactics.	68
4.5	Pearson's product-moment correlation (r) between social intelligence and impression management and its seven tactics.	68
4.6	Comparison of impression management scores of extravert and introvert Ss.	70
4.7	One-way analysis of variance of the seven tactics scores for the introvert Ss	71
4.8	Tests of differences between pairs of the totals of the seven tactics for the introvert Ss	72
4.9	One-way analysis of variance of the seven tactics scores for the extravert Ss	73
4.10	Tests of differences between pairs of the totals of the seven tactics for the extravert Ss	74

4.11	Comparison of impression management scores of emotionally stable and instable Ss.	75
4.12	One-way analysis of variance of the seven tactics scores for the for the emotionally stable Ss.	76
4.13	Tests on differences between pairs of the totals of the seven tactics for the emotionally stable Ss.	77
4.14	One-way analysis of variance of the seven tactics scores for the emotionally instable Ss.	78
4.15	Tests on differences between the pairs of the totals of the seven tactics for the emotionally instable Ss.	79
4.16	Comparison of the impression management scores of high and low socially intelligent Ss.	80
4.17	One-way analysis of variance of the seven tactics scores for the high socially intelligent Ss.	81
4.18	Tests on differences between pairs of the totals of the seven tactics for the high socially intelligent Ss.	82
4.19	One-way analysis of variance of the seven tactics scores for the low socially intelligent Ss.	83
4.20	Tests on differences between pairs of the totals of the seven tactics for the low socially intelligent Ss.	83
4.21	Comparison of impression management scores for the high and low job cadre Ss.	85
4.22	One-way analysis of variance of the seven tactics scores for the low job cadre Ss.	86
4.23	Tests on differences between pairs of the totals of the seven tactics for the low job cadre Ss.	87

4.24	One way analysis of variance of the seven tactics scores for the high job cadre Ss.	88
4.25	Tests on differences between pairs of the totals of the seven tactics for the high job cadre Ss.	89
4.26	The 2(E) x 2(n) x 2(SI) x 2(J) ANOVA of IM scores with K = 16, n = unequal, N = 279.	
4.26a	The Main effect of B(neuroticism) upon IM.	92
4.26b	The Main effect of C(social intelligence) upon IM.	93
4.26c	Interaction effect of CxD(social intelligence and job cadre) upon IM.	94
4.27	The 2(E)x2(N)x2(SI)x2(J) ANOVA of OE scores with K = 16, n = unequal, N = 279.	96
4.27a	The Main effect of A(extraversion) upon OE.	97
4.27b	The Main effect of C(social intelligence) upon OE.	97
4.27c	Interaction effect of Ax B (extraversion and neuroticism) upon OE.	98
4.28	The 2(E)x2(N)x2(SI)x2(J) ANOVA of SE scores with K = 16, n = unequal, N = 279.	100
4.28a	Interaction effect of C(social intelligence) and D(job cadre) upon SE.	101
4.29	The 2(E)x2(N)x2(SI)x2(J) ANOVA of SD scores with K = 16, n = unequal, N = 279	102
4.29a	The Main effect of B(neuroticism) upon SD scores.	103
4.29b	The Main effect of C(social intelligence) upon SD.	103
4.29c	Interaction effect of C(social intelligence) and D(job cadre) upon SD	104

4.30	The 2(E)x2(N)x2(SI)x2(J) ANOVA of ND scores with K = 16, n = unequal, N = 279	105
4.31	The 2(E)x2(N)x2(SI)x2(J) ANOVA of CS scores with K = 16, n = unequal, N = 279	107
4.31a	Interaction effect of C(social intelligence) and D(job cadre) upon CS	108
4.31b	Interaction effect of A(extraversion), B(neuroticism), and D(job cadre) upon CS.	109
4.32	The 2(E)x2(N)x2(SI)x2(J) ANOVA of OC scores with K = 16, n = unequal, N = 279	111
4.32a	The Main effect of B(neuroticism) upon OC.	112
4.32b	The Main effect of C(social intelligence) upon OC.	112
4.32c	Interaction effect of C(social intelligence) and D(job cadre) upon OC.	113
4.32d	Interaction effect of A(extraversion), B(neuroticism) and D(job cadre) upon OC.	114
4.33	The 2(E)x2(N)x2(SI)x2(J) ANOVA of ID scores with K = 16, n = unequal, N = 279.	115
4.33a	The Main effect of B(neuroticism) upon ID.	116
4.33b	Interaction effect of C(social intelligence) and D(job cadre) upon ID.	117
4.33c	Interaction effect of A(extraversion), C(social intelligence) and D(job cadre) upon ID.	118
